

MAKE GRADE AND MOVE AHEAD IN A BIG WAY

For almost six decades, John Deere motor graders have been building a reputation for outstanding control and effortless grading precision. Thanks to the best ideas of customers like you, we've achieved a legacy of industry firsts. Productivity boosters enabled with the Grade Pro option like exclusive automation features, cross slope, return to straight, and lever steering. Plus your choice between dual-joystick or fingertip controls. And the smaller, budget-friendly 620 P-Tier. Its exceptional balance, optimized performance specs, and reliable capability can help you take grading performance to the next level and your operation in a reimagined new direction.

Just your fit

Our competitively priced 620 P-Tier offers contractors, townships, and municipalities the grader they asked for, with just the right amount of power and fuel savings of up to 10 percent over our larger models. It's equipped — not stripped — with many of the same performance features found on our larger motor graders.

Power that checks and balances

Increased engine horsepower, torque, and blade pull over earlier models produce generous power and lugging ability, to deliver more power to the ground, easily pull through tough spots, or tackle steep hills. John Deere motor graders are designed with optimal weight distribution over each axle, for outstanding balance and grading performance.

Freedom of choice

Our P-Tier Graders let you choose how work gets done. Our Grade Pro option provides fatigue-minimizing electrohydraulic (EH) controls that are armrest mounted. Opt for state-of-the-art dual-joystick or fingertip controls that mimic the conventional control pattern. The best of both worlds is available with a field kit that allows you to easily swap between the two. Our P-Tier models also offer conventional lever-operated controls. And based on customer feedback, all models still have a steering wheel.

Count on cross slope

Standard on Grade Pro-optioned machines, cross slope maintains slopes by automatically adjusting one side of the blade while the operator controls the other. Cross slope can also be operated in "manual mode" as a slope meter. Automated cross slope simplifies holding a consistent slope by reducing operation to a single lever. Both dual-joystick and fingertip controls come equipped with cross slope.

Picture yourself here

All-around visibility is virtually unobstructed, with a clear view to the heel and toe as well as behind the moldboard. You can also see the area beneath the front axle, for increased awareness of oncoming obstacles. LCD hi-vis monitor provides intuitive, pushbutton access to vital machine data displayed via simple, easy-to-navigate icons and menus. High-resolution rearview camera with dedicated in-cab monitor comes standard.

Working in tandem

Utility contractors will appreciate the outstanding visibility to the tandems on Grade Pro-optioned models while working around obstacles such as water mains and hubs. Crab steering positions the tandems on firm ground, reduces side drift, and increases sideslope stability.

Premium productivity

Featuring a fully sealed bearing and pinion that run smoother and quieter, the industry-leading design of the optional premium circle reduces operating costs while delivering 40percent more torque and 15-percent more speed than a traditional circle. The premium circle eliminates having to compensate for wear in the circle and improves accuracy when using a grade-control system. And greasing intervals of only four zerks every 500 hours make the premium circle essentially maintenance free. Durable dual-input and proven single-input circles are also available.

Uptime is everything

All daily service points including fuel refill are grouped on the left side of the machine for convenient ground-level access. On the right, periodic-service points including the engine oil, hydraulic, transmission, differential, and fuel filter bank are within easy reach. Cooling package minus stacked coolers plus hinged swing-out fan ease core cleanout. Variable-speed hydraulically driven fan runs only as fast or as often as needed, to conserve power and fuel while reducing noise.

Precision Construction

John Deere construction equipment comes with in-base connectivity free from subscriptions or annual renewals. Analyze critical machine data, track utilization, review diagnostic alerts, and more from the John Deere Operations Center™. The Operations Center also enables John Deere Connected Support[™], which uses data from thousands of connected machines to proactively address issues before they arise. Your dealer can also remotely monitor machine health, diagnose problems, and even update machine software without a trip to the jobsite.*

*Availability varies by region and product. Options not available in every country.

PUT INTELLIGENCE TO WORK

With **Automation Suite** including industry-exclusive Auto-Pass, Blade Flip, and Auto-Shift PLUS, it's push-button easy to set yourself apart from your competition. Our automation advantages are available from the factory when the motor grader is equipped with electrohydraulic (EH) controls, or they can be added to the machine in the future:

- Available with any control configuration, Auto-Shift PLUS allows operators to work without using the inching pedal.
- Auto-Articulation lets the operator increase the maneuverability of coordinated steering and articulation while using only the joystick-steering function to steer and operate other necessary functions without manually articulating the machine.
- Machine-Damage Avoidance eliminates the risk of blade damage to machine structures during any operation.
- Auto-Pass makes grading easy by automatically placing the blade on the ground and activating the grade-control system (when equipped) at the start of the pass, then automatically raising and resetting the blade at the end of it.
- Use Blade Flip to automatically mirror the circle to a preset angle.
- Easily prepare the machine for transport with Machine Presets.
 Stow the blade and ripper, turn on the lights including the hazards, and enable Auto-Shift with one push-button press.

Additional equipment

Key: ● Standard ▲ Optional or special

See your John Deere dealer for further information.

620 P Operator's Station

- Low-profile ROPS/FOPS cab with HVAC (ROPS ISO 3471 / FOPS SAE 3449 Level II)
- ▲ Low-profile ROPS/FOPS cab utilizing laminated glass with fixed lower front and side opening windows
- ▲ Opening side windows (standard with Grade Pro)
- Keyless start with multiple security modes
- Fabric air-suspension seat with armrests and headrest
- Premium heated, leather/fabric, highwide-back, air-suspension seat with armrests (standard with Grade Pro)
- Sealed-switch module with function indicators
- Electric rear-window defroster
- Upper front windshield washers with intermittent wipers
- Upper rear windshield washers with intermittent wipers
- Powered cab precleaner
- ▲ Decelerator pedal

520 P Operator's Station (continued)

- ▲ Flip-down right-hand cab beacon bracket
- Front window sun visor
- ▲ Retractable rear sunshade
- Rearview mirrors, exterior (2) (SAE J985)
- ▲ Heated exterior mirrors (2) (SAE J985)
- High-resolution rear camera with dedicated in-cab monitor (in some markets)
- High-resolution front/rear-camera combination with dedicated in-cab monitor
- Retractable seat belt, 76 mm (3 in.) (SAE 386)
- AM/FM radio with auxiliary and Weather Band (WB)
- Push-button-activated cruise control

Electrical

- 100-amp alternator
- ▲ 130-amp alternator
- Batteries (2), 1,010 CCA with 190-min.
 reserve capacity
- ▲ Batteries (2), 1,400 CCA with 440-min. reserve capacity

620 P Electrical (continued)

- ▲ Left-hand engine compartment service-check light
- Transporting lights (4 halogen)
- Grading lights (10 halogen)
- ▲ Deluxe grading lights (18 halogen)
- Multifunction/multi-language diagnostic LCD color monitor
- Reverse warning alarm (SAE J994)
- LED brake and turn lights

Moldboard

Patented pre-stressed, high strength, wear resistant:

- 3.66 m x 610 mm x 22 mm (12 ft. x 24 in. x % in.)
- 4.27 m x 610 mm x 22 mm (14 ft. x 24 in.
- Quick-change and jackscrew-adjustable moldboard side-shift extreme-duty wear inserts
- Reversible overlay endbits

Overall Vehicle

 JDLink™ wireless communication system (available in specific countries; see your dealer for details)

Additional equipment (continued)

Key: ● Standard ▲ Optional or special

See your John Deere dealer for further information.

620 P Overall Vehicle (continued)

- Ground-level fuel filling
- Fluid-sampling ports for engine oil and coolant, hydraulic oil, and axle and transmission fluids
- Vandal-protection locking for: Cab doors / Top tank radiator-access door / Engine coolant surge tank / Hydraulic reservoir cap / Battery-disconnect switch / Ground-level electrical master disconnect switch / Fuel-tank door and cap / Toolbox
- Environmental drains with hoses for engine, transmission, hydraulic, differential fluids, and engine coolant
- Hydraulically driven cool-on-demand reversing fan
- Banked easy-access vertical spin-on filters for hydraulic, transmission, and ayle fluids
- Engine rotary ejector precleaner
- Automatic differential lock
- Engine-stall prevention and auto shutdown
- Single-input circle drive with slip clutch

520 P Overall Vehicle (continued)

- ▲ Single-input circle drive
- ▲ Premium circle
- ▲ Auto-Shift transmission
- ▲ Auto-Shift PLUS transmission
- ▲ Blade-impact-absorption system
- Quick-service bank for transmission, hydraulic, engine oil, and engine coolant fluid changes
- ▲ Wheel chocks

Automation (optional with Grade Pro)

- ▲ Automation Suite
- ▲ Auto-Articulation
- ▲ Auto-Pass
- ▲ Blade Flip
- Machine Presets
- ▲ Machine-Damage Avoidance

Front Attachments

- Front push block
- Mid-mount scarifier with float position,
- Front-mounted dozer blade, 2464 mm (97 in.)
- Front-mounted dozer blade, 2667 mm (105 in.)

20 P Rear Attachments

- Full bottom guard with access panel and side quards for rear vehicle protection
- Rear-mounted ripper/scarifier
 combination with rear hitch and pin,
 3 ripper shanks
- Rear counterweight with rear hitch and pin
- Scarifier shanks (9) with teeth for rear ripper scarifier

Grade Pro Option

- Low-profile Grade Pro cab utilizing laminated glass with fixed lower front and side opening windows
- Premium heated, leather/fabric, highwide-back, air-suspension seat with armrests
- ▲ Dual-joystick controls
- ▲ Fingertip armrest-mounted controls including lever steering
- Steering wheel
- Cross slope
- Return to straight
